## Lei Makes History

### vocabulary

#### to gasp

To take in a sudden, short breath, often because you are surprised, shocked, or out of breath.

*When she saw her friend trip, she turned and let out a sharp gasp of surprise.*

#### to panic

To feel or show sudden, much fear or anxiety, often causing you to act without thinking.

*He started to panic when he couldn't find his cellphone.*

#### to recognize

To know who someone is or what something is because you have seen, or heard them before.

*He recognized his friend across the street and waved.*

Let's Read!

Just as Lei was about to step away, he noticed tiny letters near the bottom of the artifact. They were easy to miss. Curious, he bent down to read them. The letters were written in English. Confused, Lei quietly read the sentence out loud, almost like a whisper.

“Stay calm... and think beyond the shape of the problem.”

He paused. That's strange, he thought. What does that really mean?
